

## Press Release

# 5G FED CONFERENCE

*in collaboration with*

# ASSOTELECOMUNICAZIONI

Lucca, April 13 2021 - Comunicare Digitale is proud to announce the organization of the **5G FED CONFERENCE**, thanks to the important collaboration reached with **ASSOTELECOMUNICAZIONI**, the trade association that, in the Confindustria system, represents the telecommunications supply chain in Italy.

The event is scheduled for May 14, 2021 from 09.30 to 13.00 on the **Connect digital platform** <https://www.forumeuropeo.tv/>, with the support of important media partners, and **will be in digital version**.

The participation of the main market players, telco, industry, stakeholders, public and private associations, representatives of European and Italian institutions, the main reference hubs of 5G is expected to participate in the 5G FED Conference.

"With great enthusiasm we join the 5G FED Conference", says **Laura Di Raimondo, Director of Asstel-Assotelecomunicazioni**. "For Asstel it is a priority to continue to inform and train on the potential and new services that will be enabled thanks to the fifth generation mobile network, destined to completely change the way people connect to the Internet and communicate between people and objects. The transition to digital is the way to overcome the emergency by investing in the future, so that technological development is the engine for relaunching Italy's growth. "

"5G represents a change of pace, not just an enabling technology but an ecosystem that reshapes the future: from services for integrated healthcare and road safety, passing through new business models and the integration of production processes. in industry 4.0, up to professional enrichment for millions of workers. The creation of 5G networks "- underlines **Laura Di Raimondo** -" will lead us to evolve the way in which we have conceived everyday life up to now. "

"The event of May 14, 2021 will be the perfect opportunity - for the companies associated with Asstel - to present successful projects and case histories in order to share the best experiences of using 5G technology by the communities."

The **5G FED CONFERENCE** is part of the events that anticipate the **18th DIGITAL EUROPEAN FORUM** (June and November 2021), which include the episodes of the Tech Talks, which are

achieving an important success with the public.

### **Assotelecomunicazioni Asstel**

*In the Confindustria system, **Asstel** represents the entire TLC chain, which has 130,000 employees and includes companies that manage fixed and radio-mobile telecommunications networks and ancillary digital services, manufacturers and suppliers of user terminals, manufacturers and suppliers of network infrastructures, equipment and software services for telecommunications, the managers of network services and infrastructures, including outsourced ones, the managers of Customer Relationship Management and Business Process Outsourcing services.*
